(TS13) (TS15) (TS17)

# ACCESSORIES

### Removable Round Abductor

The abductor maintains separation of the knees for children prone to abduction. Three sizes correspond to the three sizes of the chair.

**ABD1, ABD2 ABD3**

### Shoulder Protractors

45° support pads mounted in the same slots as the standard lateral pads help to block unwanted upper extremity extension or to keep arms more mid-line for children with low tone. SHPRS (Small) is used on the TS-13, SHPRL (large) is used on the TS15 & TS-17

**SHPRS, SHPRL**

### Adjustable Armrests

Adjustable armrests can be added to the basic chair. They are angle adjustable and may be flipped back completely out of the way. They are height adjustable by removing bolts and repositioning them in a series of holes on the sides of the chair.

**AR**

### Slide On Tray

The tray slides onto the adjustable armrests and is secured with two spring pins that engage in a series of holes on the armrests.

**TRS**

### Adjustable Angle Back Hardware

Allows the seat to back angle to be opened up for a recline of up to 15°

**AAB**

### Clip on Tray

Attaches to the chair with two spring clips that engage in a series of holes on the sides of the chair. The height is determined by the choice of holes. The angle is adjusted by supports attached to the tray.

**TRC**

### Push Handles

Attach to back of chair to make it easier to move the chair

### Shoe Holders

Three sizes correspond to the three sizes of the chair

**SH1, SH2, SH3**

### Chest harness

Four point bib style harness. Secured with 4 fastex buckles on 1" webbing. Two sizes correspond to the three sizes of chair.

**CH, CH1, CH2**
